

# Petition for a Fair Contract

**We, the healthcare professionals** of HPAE Locals 5030, 5138, 5058 and 5097 at Hackensack Meridian Health including Palisades, Southern Ocean and Jersey Shore Medical Centers and The Harborage, support our Bargaining Committees' efforts to achieve a contract with:

- Safe staffing protections for all bargaining unit members, including safe work loads, proper equipment, and training;
- Patient safety measures;
- Improved health care provider access;
- Controls for rising out of pocket medical expenses; and
- Equitable wages for all bargaining unit members including a \$15/hr minimum living wage for service and maintenance health care workers.

We support the right of every worker to organize a union without retaliation or harassment. As healthcare professionals, every day our top priority is providing safe patient care. We stand united as a Union to fight for a fair and equitable contract for every healthcare worker.
